BIZZARTM

Interior & Exterior Textures paints

Water based interior & exterior texture coatings

Dura Stone

Real Stone Coatings

Bizzar DuraStone is water base real stone texture finish for interior and exterior use. It gives stone finish with attractive coloured stones. Durastone give good water resistance and best adhesion and its coating is hard and tough

RUSTICO

Exterior Textures

Bizzar Rustic Texture Finish is made with high quality marble powder, silica sand and quartz in a rich acrylic binding medium. This paint gives a very unique and different feel making the walls stand out. This material has excellent binding to the surface and has the ability to hide small cracks. Its a water based fine textured finish which has special type of tough and flexible binding technology for long term durability

Spartex

Exterior Textures

SPARTEX is water based fine textured finish which has special type of tough and flexible latex binder for long term durability. It has a very good anti-fungal and anti-algal property which allows to apply on both interior and exterior surfaces. It can be applied on concrete, plastered surface, metal and wood. Excellent toughness, Fine-Textured finish, best adhesion and weather-ability gives long lasting performance.

ARCHITO

CONCRETE TEXTURES

ARCHITO concrete finishes are finishes that are manufactured using a water based technology that combines concrete, lime, and other proprietary binding materials to create a material which is durable and long lasting unlike regular plasters .

The best part about designing with this versatile material is its stone hardness. It does not get weathered with time easily, thus saving you the cost of refurbishment and regular maintenance, and also making it a great material for Indoor and outdoor use. They are also water, dust, and crack resistant and have high-flexural strength

ACCOCRETE

ACCOSTIC CONCRETE

ACCOCRETE Acoustic Paint , Plaster & Cladding is a sound-absorbing product & is applied by spraying or Trowel in areas where reducing reverberation time and noise along with improved acoustics is desired. Our acoustic paint adapts to any type of ceiling or wall & also gives good aesthetics . It is a plant fibre based , natural & environmental friendly product with excellent sound absorbing properties
